CZAR BALKS AT COUNCIL, DEFIES GREAT BRITAIN

MAINTAINS RIGHT OF SEIZURE BY SHIPS PASSING DARDANELLES.

BERLIN, July 26.—Advice received from St. Petersburg state that a deadlock exists in Russian official circles as to the status of the volunteer fleet. The ministers are desirous of settling the affair according to the English view, but the czar declines to do so. His Majesty wants to maintain the right of the fleet to search vessels, even if the Russian vessels do pass through the Dardanelles before declaring their status.

If his desires are carried out grave consequences are feared.

BRITAIN IS AMAZED AT CZAR'S ACTION

LONDON, July 26.—Announcement from St. Petersburg that the czar has adopted an amazing attitude of defiance of Great Britain in the matter of the Dardanelles passage and the status of his volunteer fleet, has aroused a tremendous feeling of indignation throughout England to-day.

It is reported that the czar, in opposition to his ministers, wishes to maintain the status of the fleet and the right of such ships to pass the Dardanelles as merchantmen, effecting the change from their pacific character into belligerent warships on the high seas. This is really the issue on which England's protest is made, although the subsequent seizures of British ships and the entirely unjustifiable and illegal sinking of the English steamer Knight Commander has greatly inflamed public sentiment.

The consensus of opinion regarding the sinking of the Knight Commander is that while the seizure of the vessel might be permissible, did it contain contraband war, the sinking of the steamship was an act beyond the pale of legality, even in time of war.

BRITISH ENRAGED AGAIN.

British shipping critics express great indignation over the act. Several prominent shipping men interviewed this morning pointed out that should similar acts be committed on British shipping would be safe in Eastern waters, and that it would be impossible

JUDGE EVERETT WAS BIGAMIST?

LACONIA, N. H., July 26.—Starting revolutions were brought to light today through the discovery that the late Judge George H. Everett, of this city, who died last fall, had a wife living in an old ladies' home at Cambridge, Mass., despite the fact that he married another woman in this city and upon his death left the entire estate to Miss Mary Mark, his housekeeper.

Judge Everett was never seventy-two years of age when he died. The laws of the District Court must be under the age of seventy years when sworn to office. It is now declared that Judge Everett was seventy-one years of age at the time of being sworn as presiding judge, and as a result many legal complications are apt to ensue over the estate which he imposed while sitting on the bench.

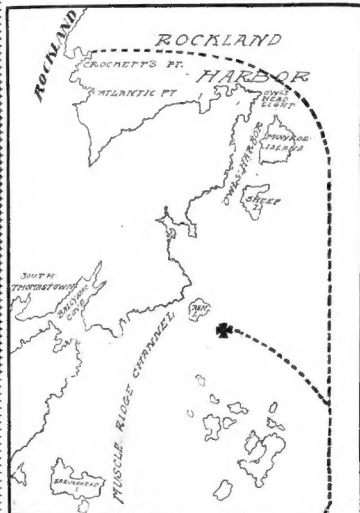

Judge Everett is said to have a widow who lives in the general office, the late of the Boston House for Old Ladies on Rock Street, in Cambridge. She has been there for the past eight years. The name of her wife is said to be Mrs. Mark.

In 1872 Judge Everett married another woman, whom he introduced to his friends as his wife. The local authorities thought at the time that he had secured a divorce from his first wife. When Mrs. Mark, the young housekeeper, took charge of the estate and when Judge Everett died in November it was discovered he had left her property valued at \$10,000.

Mrs. Everett No. 1 declared to a lawyer that she had been married to Judge Everett and did not intend to make any consent of her husband's will. The local authorities, however, and it is now the general belief, are of the opinion that she is not the wife of the late judge and property which should be distributed to her.

MAN'S OVERCOAT AND OARS IN BOAT ADRIPT

A man's light overcoat with a mooring band on the arm, and a pair of oars, one of which was painted with the word "Hope," are the only things that were pulled up from the reef near Four Island, Boston Harbor, where the grounded battery tug was last seen. The damage is much less than was expected and she will be able to proceed on her way after a few days when the stern leak is repaired.

WHERE THE CITY OF ROCKLAND STRUCK.

The map shows the western shore of Frenchman Bay. The City of Rockland was bound to Rockland, Me., got out of her course in the fog, she struck the rocks near Four Island, and then drifted from the point of the battery tug where she struck, she was afterward beached on the Ash Island, and the passengers taken off.

SCHOONER LESLIE IS PULLED OFF THE ROCKS

Schooner Leslie, bound for Boston, was pulled off the reef near Four Island, Boston Harbor, where she grounded Saturday night in the fog. The damage is much less than was expected and she will be able to proceed on her way after a few days when the stern leak is repaired.

VERMONT'S GOVERNOR RAPIDLY RECOVERING

Bennington, Vt., July 26.—Governor John D. McCullough, who was taken ill last week while returning from Chicago and was later conveyed to the State Hospital in New York, for intestinal trouble, is now recovering rapidly. He is still at the hospital.

People Aboard Ship Landed in Life Boats and Rafts After Thrilling Experiences—Vessel Hit Rock Ledge in Early Morning, and Lies in Dangerous Position.

Special to the Boston American.

ROCKLAND, Me., July 26.—After a thrilling experience in life-boats and on life-rafts, from which they were landed on Ash Island from the steamer City of Rockland, which went ashore on Gangway Ledge in a dense fog at 5:30 o'clock this morning, the passengers were brought in safety to Rockland to-day.

Many of the passengers were in the dining-saloon of the steamer when she struck on the ledge. The steamer had been feeling her way slowly through the fog. Captain Mark Pierce was in the wheelhouse. She was moving at less than quarter speed when there came a grinding noise and a crash and the big steamer grounded with her bow high on the ledge.

PASSENGERS SAVED IN BOATS.

The instant commotion among the passengers was checked promptly by the officers. Captain Pierce ordered the passengers to put on life preservers, and lifeboats and rafts were lowered. There were about 300 passengers aboard.

Six boats and two rafts were lowered, and the passengers were piled aboard. The boats were strung one after another, and the rafts towed behind. The passengers behaved with great calmness, although fully half of them were women and children.

FAST ON SHEEP'S ISLAND.

The steamer later drifted from the reef and struck again on the southwest part of Sheep's Island, off Crescent beach, five miles from Rockland. There she stuck, with her forward part under water.

Her whistles sounded for help when she hit the reef, and as soon as possible a telephone message was sent to Rockland. The

passengers J. P. Moran and Catherine, of the Blue Hill Line, swam down to the bay and brought the passengers to Rockland. Later the tug Frederick Wilson and Somers N. Smith went to the steamer's assistance, but it was impossible to move her. When the steamer struck some of the passengers were still in their berths, and some were thrown out by the shock. There was a confused rush to the deck, but it was not long before the reassuring words and manner of Captain Pierce calmed the passengers and they behaved bravely. Their strongest wish was to get to the shore.

"I am intensely interested in the Fall River situation, and am keeping in close touch with it through the State Board of Arbitration. I trust that the board will find a common ground upon which the parties to the controversy may meet. That is what the board is trying to do, and I believe it can be accomplished in time."

"This is a matter in which the State Board can properly take a hand, and I think that both toilers and mill owners have shown a disposition to accept any help that will really relieve the situation. The

members of the State Board are good men, men who have had a great deal of experience in just such matters as this, and I have great faith in their ability to bring about good results if such a thing is possible. This board does many acts of this character that the public knows nothing about."

"As Governor of the Commonwealth, I am naturally deeply concerned for the welfare of the Fall River people, and would be willing to do anything in my power to bring about an amicable adjustment of the trouble. At this stage I am of the opinion that the State Board is doing all that can be done."

Mill Workers Not Well Fortified Against Hard Times, and Already the Pinch of Poverty Is Severely Felt.

By Boulah Dickinson.

FALL RIVER, July 26.—Upon

the 20,000 women mill workers

falls the heaviest load

caused by the complete shutdown of

the Fall River cotton mills. The

men congregate on the streets and

talk the matter over, idling away

the time pleasantly enough. But

it is the women who have to "warm

over" yesterday's food for to-day,

who have to pinch and scrape, and

plan to barely live. As usual, too,

it is the women who are doing most

of the worrying about the future,

and wondering where on God's

good earth will they get food for

the children later on.

For the average mill worker is

not well fortified for this hard

time. Some, it is true, have fore-

seen the rainy day, but the majority

have lived from hand to mouth.

Those against hope that the food

amounting to the 12 1/2 per cent cut

down would not be posted in the mill

the big army of women started for work

yesterday at the usual time, 6.20. Yet

this sign greeted them as they

went to work. "After Monday,

July 26th, there will be a reduction of

12 1/2 per cent in the wages of all op-

eratives."

Directly across this sign, and in con-

trast, a hideous mockery, was the sign:

"Caution! Order your work clothes

only cash orders received. Send

all orders to Mr. James Bonnell."

To the mill worker, this was the em-

bodiment of a cruel fate. "If we were any

other," she said, "I would gladly get

my work clothes for cash. But I

can't. I have to wait until I get my

pay. And that is a long time to wait

for my money."

TENNIS EXPERT ILL ON COURTS

WILL MEET TENNIS CHAMP.
BRISTOL, R. I., July 26.—J. D. E. Jones, of the Weymouth Golf Club, who yesterday triumphed over J. O. Ames, of the Agawam Golf Club, in the final match in the State tennis championship tourney in singles, will to-day oppose C. R. Burdick, the present champion for the State title.

Play was interrupted several times during the morning by showers, which made the courts slippery and caused the footing of the players to be uncertain. Both Wright and Clothier, who beat O'Brien so easily, fell on this account a number of times, and when they left the courts after their first matches their white suits were covered with dirt.

The attendance is rapidly increasing for the afternoon, and the gallery promises to be very large.

MALARIA
AN INVISIBLE ENEMY
TO HEALTH

Malaria is a slow poison, but the most stubborn and deeply rooted when it takes possession of the system. We breathe into the lungs the polluted, germ-tainted air; the little microbes then enter into the system, and feeding upon the red corpuscles of the blood, soon reduce this vital, life-sustaining fluid to such a weak, watery state that the patient becomes listless, pale and

anemic, and mentally and physically depressed. May be very irritable, and may complain of pain with slight rigors or chilly sensations, followed by fever and thirst; but gradually the nervous system is affected; the liver becomes torpid, and dark or yellow spots appear upon the skin; the stomach fails to digest the food, and there are sometimes giddiness, bad taste in the mouth, constipation and a general weakness, tired feeling that only a sufferer from Malaria can describe. Other and more dangerous symptoms are apt to follow where the disease is neglected, and the patient is not treated. The spleen enlarges, the system is debilitated, the system enlarged liver, weak kidneys, boils and rashes and dangerous-looking sores and abscesses. Malaria is all the more dangerous because of its insidious and stealthy nature. It is an invisible enemy, and its victims are often taken by surprise. It is a disease that is not to be trifled with.

What is needed in Malarial troubles is a blood purifier. S. S. S. purifies the germ-infested blood, tones up the stomach, improves the appetite and invigorates the entire system. It stimulates the torpid sluggish organs of the body, enabling them to properly perform their functions and carry off the poisonous secretions and health-debasing matter that are the polluting cause of the disease.

SHE TELLS GIRLS A FEW OF THE MANY QUALITIES THAT MAKE A GOOD WIFE

TUCKED away in the depths of every girl's heart is the thought that some day she will marry the man of her choice and live happily ever after. There is nothing to be ashamed of in this—a woman's thoughts turn to love and marriage as naturally as a flower to the sun.

But even though it is as often in a girl's mind, I doubt very much if she begins to realize what it all means. Even at the altar the solemnity of the vows she makes weighs but lightly on her mind.

She loves the man and means to make him a good wife, but her idea of the duties of a wife are of the vaguest.

In marrying a man it is not alone he loves you accept; you are indebted to him, in most cases, for your actual support.

The only way in which you can repay this obligation is by making him a good wife.

The woman who is a good wife and mother is filling the highest vocation that is granted to women. There is no career equal to it.

We do not best that which we are most naturally fitted for, and a true woman should be at it, it is the most fulfilling of duties of wife and motherhood.

The good wife should be her husband's comfort, strengthening him when he is weak, softening him when he is hard, walking proudly by him in success, giving him tender love and sympathy in adversity.

She should spend his money wisely, remembering that every cent represents work and thought on his part.

His good name should be held more precious than gold.

Many a man has lost heart and courage simply because he could not keep pace with the demands of his wife.

The young wife finds it hard to realize that she cannot have all the luxuries she had in her father's house.

Even if she does not actually complain she looks hurt and surprised when the husband finds that expenses are running a little too high.

His loves her and wants her to have as many pretty clothes and comforts as she has been accustomed to, and that is the beginning of the trouble.

Try and remember, girls, that if you wish to help your husbands to succeed you must be content with small things.

The WOMAN OF 40

MORE INSTANCES OF HER INABILITY TO OBTAIN WORK AND A SUGGESTION OF A REMEDY

THERE was published recently on this page a letter from a woman reader who told of the pathetic experience of a "woman over forty" who was unable to find any employment because she was "too old."

The writer of that letter now tells some other specific instances of the kind and her letter is printed here, giving her own possible causes of this social phenomenon and asking what the remedy is. Can any reader of this page give the real cause of this question and answer to this question are welcome and will be printed.

A letter from another woman on the same subject is also given.

The Missing Bank Note

THE respectable home of Miss Jessie Howard was in a state of turmoil. One hundred pounds had been paid to Miss Jessie that morning, and within little more than an hour the money had vanished as if by witchcraft.

Just now Miss Howard was tearfully going over all the circumstances with her niece, who stood before her with indulgent eyes and protesting voice.

"Of course, Aunt," sobbed Miss Jessie, "it is only natural that you should feel as you do just now, when I tell you that you would be a little more reasonable."
